

THE OHIO STATE UNIVERSITY
COLLEGE OF ENGINEERING

Aerospace Engineering Graduate Seminar

AEROENG 8890

Credit Hours:

1.00 - 1.00

Course Levels:

Graduate (5000-8000 level)

Course Components:

Seminar
Lecture

Course Description:

Lecture and discussion of current topics related to Aerospace Engineering presented by graduate students, staff and guest speakers. Course does not count toward course work required for MS or PhD degrees.

Prerequisites and Co-requisites:

Prereq: Grad standing in AeroEng, MechEng or NuclrEn.

Course Goals / Objectives:

- Introduce graduate students to a broad range of research topics in Aerospace Engineering Improve professional skills of graduate students in Aerospace Engineering
-

Course Topics:

- Introduction to contemporary research areas in Aerospace Engineering
-

Designation:

Required
