

Advanced Multi-Engine Operations

AVIATN 4300

Credit Hours:

2.00 - 2.00

Course Levels:

Undergraduate (1000-5000 level)

Course Components:

Lecture

Lab

Course Description:

Introduction and consideration of Part 121 and 135 operations with a comprehensive study of the principles of advanced aircraft operations.

Prerequisites and Co-requisites:

Prereq: Aviatn 4100.

Course Goals / Objectives:

- Obtain knowledge regarding larger aircraft systems, engineering, performance, and operational capabilities.
- Demonstrate scheduling awareness regarding aircraft consideration and selection.
- Obtain knowledge of Multi-engine aerodynamics and performance

Course Topics:

- Larger complex aircraft characteristics and systems
- Specific aircraft systems
- Complex aircraft performance and capabilities
- Current issues and challenges

Designation:

Elective
