

THE OHIO STATE UNIVERSITY
COLLEGE OF ENGINEERING

Advanced Topics in Electromagnetics and Optics

ECE 8019

Credit Hours:

3.00 - 3.00

Course Levels:

Graduate (5000-8000 level)

Course Components:

Lecture

Course Description:

Topics are chosen to prepare graduate students for research and application in current problems in electromagnetics and optics.

Prerequisites and Co-requisites:

Prereq: 6010 (719).

Course Goals / Objectives:

- Prepare graduate students for research and application in current problems in electromagnetics and optics
-

Course Topics:

- Advanced topics in electromagnetics and optics chosen to prepare graduate students for research and applications in current problems in electromagnetics and optics
-

Designation:

Elective
