

THE OHIO STATE UNIVERSITY
COLLEGE OF ENGINEERING

Honors Undergraduate Research in Integrated Systems Engineering

ISE 4998H

Credit Hours:

1.00 - 4.00

Course Levels:

Undergraduate (1000-5000 level)

Course Components:

Independent Study

Course Description:

Opportunity for undergraduate honors students to conduct research in Integrated Systems Engineering.

Prerequisites and Co-requisites:

Prereq: Honors standing, and permission of instructor.

Course Goals / Objectives:

- Students gain experience in various aspects of research, such as planning and design, conducting research, analyzing and interpreting data, &/or results dissemination.
-

Course Topics:

- Supervised undergraduate research for honors students on various topics in industrial and systems engineering.
-

Designation:

Elective
