**THE OHIO STATE UNIVERSITY** COLLEGE OF ENGINEERING

# **Resistance Welding Processes**

## WELDENG 4012

#### **Credit Hours:**

3.00

### **Course Levels:**

Undergraduate (1000-5000 level)

#### **Course Components:**

Lecture Lab

#### **Course Description:**

Addresses the fundamentals, theory, and application of Resistance Welding processes, with emphasis on processes, equipment, materials, and quality control.

#### **Prerequisites and Co-requisites:**

Prereq: 4002, and enrollment as WeldEng-BS major; or permission of instructor.

#### **Course Goals / Objectives:**

- Develop an understanding of the theories and fundamentals of Resistance Welding processes
- Understanding of Resistance Welding equipment details including power supplies and tooling
- Understanding of methods for quality control and mechanical testing of Resistance Welds
- Understanding of the Resistance Welding of important structural materials including carbon and low alloy steels, stainless steels, aluminum, and titanium
- Understanding of the Resistance Welding of coated steels including galvanized, aluminized, tin coated, and terne coated steels

#### **Course Topics:**

- Resistance Welding fundamentals.
- Resistance Welding equipment, tooling and power supplies.
- Resistance Welding of materials.
- Resistance Welding of coated steels.
- Resistance Welding quality, quality control, and testing.

Resistance Welding Processes - 2/2

**Designation:** Elective
